FISHING GUIDE

The words in the fish symbols give the fishing prospects for every day of the year. These forecasts, based on fishing experience over many years, are subject to change by local conditions such as high winds, storms or cold. In tidal waters, use the incoming tide.

Special Tips for Winter Picnics

Winter picnics require certain preparations to insure their success. Near-freezing temperatures are hardly noticed if the fare is hot, hearty, and handy to eat, so leave the salads for summer!

Use that cooler for storing "hots" too. Line both cooler and lid with foil. Wrap pre-buttered bread or rolls in foil, heat, then wrap in 3 or 4 thicknesses of newspaper and pop into cooler.

Disposable foam cups are good heat holders. Thick

soups and stews served in big tin cups or foam-type bowls are handled easily with mittens or gloves on. Furnish soup spoons instead of teaspoons.

Sweet desserts supply energy for rigorous winter play. Bring a variety of candy bars or bake individual mince or apple pies ahead of time, wrap in foil, heat before packing.

Coffee or cocoa can be made on the spot if a fire is built, or bring from home in insulated containers.

THINKING SNOW? THINK GO!

There are few people who haven't at some time felt the winter time thrill of swooping down a snow-covered hill—perhaps on skis, a toboggan, "belly flopping" on a Flexible Flyer, or even in an old tin dishpan. Until the past few years it just wasn't possible to swoop UP that hill. With the invention of the snowmobile, flying up, over, around and through those mounds of snow became a new experience—one that will prompt some 280,000 families to buy snowmobiles this year.

Families have discovered the pleasure of winter picnics and outings in temperatures far below those usually considered comfortable. Now there are snowmobile trailers for hauling gear, game, or the rest of the family! State parks, until now used solely for summer-time pursuits, become meeting places for whole groups of families intent on enjoying winter to the fullest.

Snowmobile clubs abound, and in many states their interest in safety and in the conservation of natural resources, has prompted legislative action to be taken.

Sportsmen can now reach ice fishing areas that were formerly accessible only to flyers. Veteran campers have even extended the camping season to include many of the winter months. Cabins and lodges can be enjoyed all year instead of a few short summer months. Camera bugs by the thousands focus on a glistening new paradise each winter weekend.

Industry is reaping a harvest in the manufacture of top-toe garments and accessories designed to protect the wearer from the extreme temperatures of mid-winter. This gear is also popular with winter sports fans, who find it as lightweight as it is warm.

Americans have decided that too long have the fruits of winter gone a-begging! If you keep your machine in top running condition, if you follow safety rules and obey state laws, the delights of snowmobiling far outweigh their dangers.

CARNATION

CAPRICORN

CAPRICORN—Sign of the Stoics, persons born under its influence are strong in adversity, able to overcome great odds, make good politicians.

ITALIAN CASSEROLE BREAD

(*Panè Mazzitao*)

2 cups warm water
1 pkg. granulated yeast
2 tsp. salt
1 tbsp. sugar
4 cups sifted flour

Dissolve yeast, salt and sugar in water. Stir in flour. Dough will be sticky. Let rise till double in size. Stir down and divide dough into two well-greased casseroles. Sprinkle regular or garlic salt on tops and let rise to top of casseroles. Bake 1 hour in 400° oven. An added treat: before first rising, stir in ¼ cup chives or thinly sliced green onion tops, or 2 tbsp. fresh or dried parsley. Do not grease tops when baked and they will stay crusty.

PASTAFAZOOL

(*Pasta e Fagioli*)

4 lbs. fresh pig tails or hocks
(or large, meaty ham bone)
2 lbs. navy beans (not soaked)
2 large onions, coarsely chopped
1 ½ cups tubetti (or macaroni shells)
1 #2½ can tomatoes
Salt and pepper
10 qts. water

Cut pig tails in 2" pieces, place in large kettle with beans, onions, tomatoes and water. Bring to a boil, skimming when necessary. Add 3 tbsp. salt and 1 tbsp. pepper, cover and simmer for 6-8 hours stirring occasionally. Add more water if soup thickens too much. Cook tubetti separately and add when soup is nearly done. Taste for more seasoning. Serves 12.

From sunny Italy comes an old standby that's been the butt of many jokes—until the first taste! Easily prepared the day before, and easily transported in insulated gallon jugs, Pastafazool is guaranteed to raise the mercury 20 degrees!

WHERE'S THE CELEBRATION?

January 26... It's HOT as you watch the long, colorful parade commemorating the landing of Capt. Phillip in your country (it's also a continent) in 1788. The kangaroo, a native animal, appears on your great seal. "Waltzing Matilda," popular world-wide, is often mistakenly believed to be your national anthem! You're in Australia, and it's Australia Day.

HAPPY NEW YEAR TO ALL FROM YOUR **REXALL** DRUG STORE

A LITTLE LIGHT ON THE SUBJECT

You'll find many places for this imaginative light—family room, patio, entry, or hallway. It can be as large or as small as the size can you choose, and it can be as colorful as the marbles you decide to use.

After choosing the can—#2½ tomato can, 46 oz. juice can, a 2 or 3 lb. coffee can—drill holes (at random) slightly smaller in diameter than the marbles you are going to insert. If a hand drill is used, put a block of wood inside the can before drilling. Drill a ½ inch hole in the unopened end of the can.

Stuff the holes with wads of newspaper and spray with a flat finish paint. Black is an effective background for any color marbles. Fasten light socket according to diagram. Affix marbles in holes with any clear, quick-drying glue, or use model cement.

THE "DO-DAD" CAN DO!

To make studying more fun (and usually more profitable!) a handy "Do-Dad" needs but one wall in a child's room to work with.

The secret of transforming a bare wall into a compact study/hobby area is the arrival of ultra-modern building materials: wood-grained paneling that supports shelving in high style for low cost; a companion system of shelves, drawers and brackets; peg board that is a decorative space-saver; "quickie" adhesives to make panel installation a breeze.

When the wall has been chosen, father and child should sit down and decide what is most needed. First—work and storage space: counter top combined with drawer units. Next—display space: shelves—open, or enclosed with sliding doors; peg board with hooks; bulletin boards so that pictures, clippings and photographs can be changed from time to time.

A built-in corner desk utilizes an otherwise wasted area. If a small room necessitates leaving the bed in one spot, build a permanent frame for spring and mattress and put drawers underneath for extra storage.

Between the top of window and door casings and the ceiling there is "dead space." One enterprising father built an around-the-room shelf on top of the casings and fastened his son's electric train tracks to it. The child operated his train from the top bunk, and when he had outgrown it, the tracks were removed and the shelf used for books.

Make allowances for the future. Little girls have a way of growing into big girls, and gradually the doll collection is put away to make room for sewing equipment and hair dryers! Is there a niche for a future cassette recorder, record player, or compact stereo? Is there flat space on which to put a portable sewing machine or typewriter and still leave that homework out to do later?

Finally, install adequate lighting and supply a comfortable chair. Washable carpeting (impervious to spilled cola and pizza!) and adhesive-backed plastic on all flat surfaces keep cleanup chores to a minimum.

LAMB STEW

(makes 4 servings)

- 1 to 2 pounds lamb neck pieces, bone-in or equivalent in cubes from the shoulder
- 3 tablespoons all-purpose flour
- 2 cups stock or bouillon
- 2 teaspoons salt
- ¼ teaspoon pepper
- 1 teaspoon thyme
- 2 bay leaves
- 1 #2 can tomatoes
- 2 medium-size potatoes peeled and diced
- 1 cup sliced raw carrots
- 1 10-oz. package frozen cut corn (optional)
- 1 10-oz. package frozen cut green beans

Brown lamb on all sides over medium heat in large, lightly greased skillet or Dutch oven. Drain off excess fat, if any. Blend in flour. Add stock or bouillon, salt, pepper, thyme, bay leaves, tomatoes, potatoes and carrots; mix well. Cover and cook 30 minutes, stirring occasionally. Stir in corn and beans. Cover and continue to cook over medium heat 20 minutes or until vegetables are tender, stirring now and then. Note: During cooking, add a small amount of water from time to time, if needed. Garnish with biscuits.

(The American Sheep Producers Council)

Where's the CELEBRATION?

February 6... You've just left the palace at Kamandu where, traditionally, the king has greeted his subjects in person. Now you'll head for the carnival area and spend your carefully saved rupees in the shops and street bazaars. You sing "Kashtriya Dhun" as the parade passes. You're in Nepal, and it's National Day.

AQUARIUS—Born under Aquarius, you're unselfish, friendly, and like group projects. Aquarians are usually faithful to their mates, are tireless workers, and they freely spend on others.

ALLPAPER MAGIC

Paint may be a bit easier to apply—and faster—but the endless variety of designs and textures in wallpaper, and the fun of decorating with it, will be well worth the extra time spent.

Try using floral paper on one wall and a matching stripe on the other three. Paper a whole bedroom: walls, ceiling and doors. Closets become part of the room when shelves, storage boxes, and even the floor, are papered. Go one step farther and use coordinated fabric for the bedspread and any upholstery.

Bring privacy to a bedroom occupied by two children by papering screens to divide the study areas. Entrance halls fairly cry for wallpaper to give them that furnished look without ever using a stick of furniture.

There are many patterns of pre-pasted paper, but anyone who can measure, paste and cut can hang regular unpasted paper. Essentials needed: crack filler, glue size, patching plaster, paste, a nail, scissors, plumb bob, smoothing brush, straight edge, yardstick, paste brush, razor blade, sponge, ladder, putty knife, and lots of old newspapers. Wall preparation and painting of trim should be done first. Patch all holes, no matter how small. Pull off or steam off old paper. Remove wall plates, outlets, nails, hangers and decorative fixtures. Remove furniture for ease of movement, and use drop cloths to cover all surfaces.

Simple care keeps wallpaper fresh. Soil-retardant processes make most of today's papers washable. To clean large areas, first vacuum walls. Use a mild detergent in cool water and sponge lightly. Rub non-washable papers with soft white bread or cleaning putty. Remove stains as they occur and before they have set. There are excellent preparations for spot cleaning, and if you follow directions carefully you will avoid frequent large area cleaning.

Care in planning, combined with caution in application, will help you do a nearly professional job.

PADDY'S "EASY OVEN" STEW

Celebrate the "wearin' o' th' green" by getting out of the kitchen! Once you've put this dish together it's *no fair peeking* until the end of the specified cooking time.

Put in large casserole or heavy iron Dutch oven:

3# stew meat chunks 1 can water
2 cans golden mushroom soup 1 tbsp. salt
4 tbsp. tapioca

Cut up any assortment of vegetables—carrots, potatoes, onions, rutabagas, celery, parsnips—into large chunks. Mix all ingredients together thoroughly, cover tightly and NEVER STIR while baking.

1½ hrs. at 350° or 4 hrs. at 250°

Where's the CELEBRATION?

March 17 . . . You are aware that only in New York City is there a parade to compare with yours today. This is the feast day of your country's patron saint, and you'll dance the "jig" far into the night! You're in Ireland, and it's St. Patrick's Day.

MAKE ROOM FOR MUSIC

A novel spot for an organ is right in the middle of the room! Make it an integral part of the furniture arrangement by using it to serve as a room divider. Cover the exposed back with a sheer curtain stretched between two narrow brass rods, top and bottom.

To make an ideal spot for a spinet piano, build ceiling to floor closets 30 inches out from the wall at one end of a room. Panel the alcove made between the closets with acoustical tile. The closet doors and space above alcove can be panelled with your choice of wood panels. Recess lights into ceiling about 22 inches from the

back wall to provide adequate lighting. A new idea in dual-purpose furniture is the long, low stereo unit that can double as a coffee table. Wall space won't be necessary, and you can change records from the sofa.

If you have a collection of brass or stringed instruments you'd like to display, incorporate them into your decorating scheme. Pad a large rectangle of plywood and cover with rich red or blue velvet. Trim edges with wide gold braid and fasten an old brass cornet or bugle at an angle in the center. Presto! Instant heirloom!

Don't you wish getting ready for summer was as simple as plugging in the air conditioner and putting on the screens? With an eye to making this summer's housekeeping the easiest ever, go through each room in the house NOW.

Remove knick knacks and small objects from tables and bookcases. Their upkeep means many lost hours in the sun for you. Take down heavy drapes and replace with airy drip-dry panels. Even on the hottest days the room will seem cooler as they billow out with every breeze. Bamboo shades and awnings protect rooms from direct sun and filter the glare.

Discover the advantages of terrycloth—for tablecloths, play clothes, aprons, bathroom curtains, porch furniture covers, and even bedspreads. Take down those kitchen curtains and just use floral shades for privacy when needed.

Use plastic coated paperware at every opportunity. Install paper cup dispensers in kitchen and bathrooms. Get in the habit of using paper towelling for cleanups, wipeups, and wrap-ups. Great for polishing windows too.

Let electricity help: ovens and casseroles that can be plugged in on porch or patio; jumbo frying pans for chicken or that occasional roast; tray warmers for garlic bread and buttery rolls; blenders or crushers that will chop ice enough for a party in minutes; coffee pots that stay hot for hours.

Children love to eat "picnic style" so give them individual bag lunches at noon. Feed pets on a porch or back stoop and save a mess on the kitchen floor.

Summer hours should be spent in more exciting fashion than doing housework. Get out of the house and into the fun of them.

TEXAS JOE

- 1 pound cooked roast beef, sliced into very thin pieces.
- 2½ pounds ground beef
- 1 medium-sized onion, chopped
- 1 clove garlic, minced
- 3 cans (8 ounces each) tomato sauce
- 2 tablespoons vinegar
- 2 tablespoons prepared mustard
- 2 tablespoons chili powder
- 1½ teaspoons salt
- ¼ teaspoon pepper
- ¼ teaspoon crushed hot red pepper
- 1 can (16 ounces) red or kidney beans

Cook ground beef, onion and garlic in frying-pan until meat is lightly browned. Pour off drippings. Combine tomato sauce, mustard, vinegar, chili powder, salt, pepper and red pepper. Mix well. Add tomato sauce mixture and beans to ground beef. Cover and cook slowly 25 minutes. Add roast beef to ground beef mixture and continue cooking 5 minutes or until heated through. Yield: 8 cups.

Where's the CELEBRATION?

April 29 . . . Spring blooms of every hue decorate the streets, and your gaily flowered kimono with brocaded obi enhances their color. The parade that files past features paper dragons and hundreds of bursting fire-crackers. You're in Japan, and it's the Emperor's Birthday.

ARIES—Born with admirable traits, Aries-born require guidance for their fulfillment. Idealistic, generous, proud and full of life, they are like being flattened, and having their own way.

The Easy Way

LETTERS — A BRIDGE ACROSS THE WORLD

So nothing interesting ever shows up in your mailbox? Maybe you need a pen pal or two. Though you may never visit Europe, you can do the next best thing — correspond with someone who lives there.

After World War I an American girl wrote to a French school teacher asking for the name of someone who would like to exchange letters. Out of that first short letter grew the idea for an international pen pal organization. In 1952 "Letters Abroad," an international clearing house for pen pals of all ages was founded.

People all over the world are interested in the United States. It has been said, and rightly, that friendship between nations must begin with friendship between individuals.

Always be yourself when writing. Tell about your home and family, your work and hobbies, and be genuinely interested in his. Remember that you are, in a sense, a "Diplomat, J.G.," who represents the United States in the eyes of your pen pal.

Some years ago a little 5th grade girl began writing to a girl in Switzerland. Through their exchange of letters, their grandmothers became interested and before long started their own correspondence. When the American girl graduated from college, her graduation gift was a trip to Switzerland, where she was maid of honor at her pen pal's wedding. The grandmothers, who never expect to meet in person, are lifelong friends, and through their letters share recipes, holiday customs, family pictures, and all the minutiae of their daily lives.

The opportunity to make interesting—even exciting—friends is yours for the writing. Letters Abroad, 209 East 56th Street, New York, New York 10022. The number of pen pals you can have is limited only by how many you want to have—but the more you have, the more you'll be convinced that people everywhere are "just like me!"

Make beautiful memories for your MOM

SUNDAY, MAY 9

WITH REXALL
FRAGRANCE
EXCLUSIVES!

- Into a clean 3 lb. coffee can, sift 1 cup flour, 1 tbsp. salt, ½ tsp. pepper, ¼ tsp. garlic salt and ½ tsp. paprika. When flouring chicken, fish or pork chops, put plastic cover on and shake.
- Use a nutcracker for opening lids on small jars and bottles.
- Separate cold slices of bacon by running a rubber scraper between them. They won't tear.
- Clip a wire coat hanger at the bottom and insert a roll of paper toweling. Use hook for hanging on ladder when washing windows, or hang from tree branch or tent pole.

- Grease the grooves in the cap of a new bottle of fingernail polish with cold cream. Top will never stick.
- When cleaning the sole plate of your iron, rub with a damp pad of fine steel wool. Use cotton swabs to clean steam vents.
- Turn setting to hot, rub iron over triple thickness of waxed paper, then over folded bath towel to polish.
- De-sand yourself at the beach with baby powder. It absorbs moisture, and as you dry the sand will just drop off.
- Use your pastry brush for washing egg beater, mixer attachment or other kitchen gadgets.

COOKOUT FUN FOR THE TEEN AGE CROWD

Plan a backyard party for teen-agers around Barbecued Ribs, basted with a buttery, zesty sauce. Serve with fresh buttered corn, tossed salad, and milk. Ice Cream 'n' Waffles make a luscious dessert.

BARBECUED RIBS

- 5 pounds spare ribs
- ¼ cup (½ stick) butter
- ¼ cup chopped onion
- ¼ cup firmly packed light brown sugar
- 2 teaspoons salt
- 2 teaspoons chili powder
- 1 teaspoon dry mustard
- 1 cup pineapple juice
- ¼ cup lime juice
- 1 cup catsup
- ½ cup chili sauce
- 1 tablespoon soy sauce
- 4-5 drops Tabasco sauce

Cut ribs into 2 or 3-rib portions. Place in shallow roasting pan, meaty side up; roast uncovered in preheated 350 degree oven for 1 hour. Meanwhile, in a 1-quart saucepan melt butter; sauté onion until tender. Blend in sugar, salt, chili powder and mustard. Stir in pineapple and lime juices, catsup, chili, soy and Tabasco sauces. Heat to boiling; reduce heat and simmer 30 minutes. Place ribs on charcoal grill over slow coals (about 3 inches from coals) spoon sauce over ribs. Grill 20-30 additional minutes, turning and basting frequently with sauce. Makes 6 servings.

Bride's Recipe

(From an Old Cookbook)

Be careful of your selection; do not choose too young, nor in haste, and take only such as has been

raised in a good moral atmosphere. Do not keep them in a pickle, nor in hot water. This only makes them sour, hard, and sometimes bitter. Even poor varieties may be made sweet, tender and good by surrounding them with patience, sweetening them well with smiles, and flavoring them with kisses. Wrap them in a mantle of charity, keep warm with a steady fire of devotion, and serve with love. Thus prepared, they will keep for years, becoming ever better with age.

HOBO FOR A DAY

It's hard to come up with a "something unusual" party idea for boys 7 to 10, whether it be a birthday party or a spur-of-the-moment fun day party simply because a summer day and boys in grubby jeans were just made for each other!

Every aspect of this party will appeal to boys—from the scavenger hunt to the hobo lunch. If more than 6 boys will be present, it's wise to ask the help of another adult—for safety's sake and to help "lote."

Before leaving, prepare lunches and wrap each item in plastic bags, tops-closed with wire twists to prevent "fallout." Place each lunch in the center of a red or blue bandana handkerchief. Tie bandana securely to one end of a 36-inch piece of dowel, and once the destination is reached, give each boy his own hobo stick to carry. Bandanas will be used later for napkins.

Pick a good hiking area: state park, wooded picnic grounds, or perhaps you know a farmer who would let you tramp through his woods for a few hours. Choose the spot for the lunchbreak beforehand, and provide for "rest stops."

Make a list of 10 items to be collected during the hike and at the start of the party give each boy a copy: four leaf clover, a bird feather, 6 acorns, a black stone, etc. Bring plenty of plastic bags for storing loot. A prize is given the boy or boys who collect the most on the list, and it's a good idea to keep the list so simple that they're all winners at the end of the hike!

Boys are adept at devising their own brand of entertainment, so it's a sure bet you won't have to worry about other games to play.

This hobo lunch is hearty enough to please the boys, and nutritious enough to please their mothers! Pack pickle and vegetable sticks in plastic bags, then in foam cups to use later for the beverage.

Gooey Buns (see recipe)

Carrot, celery and pickle sticks

Apples

Totocakes (bake spongecake in flat bottomed ice cream cups — frost tops)

Pink lemonade

GOOEY BUNS

Grind coarsely: 1 cup American cheese
2 cups ham or bologna
½ cup celery

Mix with:
½ cup dill pickle
1 cup mayonnaise
1 tsp. mustard
1 tsp. sugar

Fill wiener or hamburger buns—wrap individually.

Where's the CELEBRATION?

June 23 ... After a leisurely smörgåsbord (for which your country is famous) you join the crowds that push their way along to Tivoli Gardens. Tonight there will be no night, for the sun is at its highest point. Fireworks will climax the traditional "witch burning" ceremony. You're in Denmark, and it's Midsummer Night.

GEMINI—Gemini means "The Twins." Those born under this sign are said to be two-sided, heady, talented and good conversationalists.

Cool Snacks for HOT DAYS

Fresh fruit is always a favorite snack, but have you tried fresh vegetables dunked into a bowl of icy cold sour cream spiced with horseradish?

Chunks, rather than slices, of cold meats such as salami, ham or bologna are delicious when dipped in chili sauce, chutney, or a combination of ketchup and creamed cheddar cheese.

Stuff hollowed-out dill pickles with devilled ham. Slice in thick slices for snacking.

Spread cream cheese on thinly sliced dried beef. Roll up and slice jelly roll style. Thread chunks of cheese and cocktail wieners on pretzel sticks.

Scoop out unpeeled cucumbers and fill the hole with tuna salad. Slice in 1/4 inch slices, place on a bed of lettuce and pass bowls of sour cream mixed with vinegar and oil dressing to a pouring consistency. Add bread sticks and ham slices for a party lunch.

"But mom! there's nothing to do!" is the age-old mid-summer cry of the "Freckle Faced Cookie Snatchers!" Trips to the beach have lost their charm, the reruns on TV no longer appeal, and the rest of the summer looms up like a black cloud.

Today's children take for granted planned entertainment. What to do? The wise mother will draw on memories of her own childhood for clues in solving the problem. Remember the backyard circus? The garage shows? The lemonade stands? A neighborhood art show will keep them occupied for some time.

Two weeks in advance announce the date, place and time of the show. List the exhibitors' categories: crayon drawings, water colors, oils, charcoal. Suggest subjects that could be used: favorite pets, landscapes, portraits, still life studies.

Publicize the show with hand lettered flyers that the children can do themselves. Put posters in your library, the corner grocery, even the neighborhood beauty shop. The more children participating, the more of an audience you will have on the day of the exhibit.

The day before the show, hang sheets from the walls of your porch, family room or garage, on which the entries can be fastened. For an outdoor show, pin sheets to the clothesline or hang them from the outside walls of house and garage.

Charging a penny admission will make the show more "important." Choose a spokesman from one of the winning exhibitors and have him present the money collected to a worthy charity.

Inexpensive prizes should be awarded: for instance, first prize in each category could be a frame for the winner's entry, and second prize, a box of water colors.

CONFETTI ICE CREAM CAKE

- 1 package (1 lb. 3 1/2 oz.) white cake mix
- 1 pint strawberry ice cream
- 1 cup multi-colored shot cream
- 1 pint lime sherbet

Generously butter bottoms of two 8-inch square pans and dust with flour; set aside. Prepare cake according to package directions. Stir in colored shot. Spread into pans; bake in preheated 350 degree oven according to package directions. Cool in pans on wire racks 10 minutes. Remove from pans onto wire racks to cool completely. To serve: Invert one layer onto serving plate. Spread lime sherbet over top of layer. (If necessary place in freezer to harden before adding next layer.) Place top layer of cake over sherbet; spread strawberry ice cream over top. Frost sides of cake with whipped cream that has been tinted with red food coloring. Return to freezer to harden before slicing if necessary.

Note: Cake layers may be placed in freezer to "firm up" before putting cake together. (American Dairy Association)

Protection

...a key word for football players and fans!

SUPER PLENAMINS... used by all 26 teams of the National Football League for the **VITAMIN PROTECTION** they need during season... and all year long! Safeguard YOUR FAMILY'S vitamin nutrition... like the pros - with Super PLENAMINS - America's largest selling multi-vitamin, multi-mineral product!

Kids love SUPER PLENAMINS Junior Chewables!

Where's the CELEBRATION?

July 14... This is the noisiest of all national festivals. The day begins with a mammoth military parade, and street dances and fairs sometimes continue for two days. Since you are a most excitable and emotional people, it is nothing for you to include even strangers in your embrace on this day! You're in France, and it's Bastille Day.

CANCER—Tend to marry young and have several children, are extremely sociable, and are suffering from the flu, but suffer deeply when hurt.

SAVE ON ALL YOUR SUMMER NEEDS, NOW AT YOUR **REXALL** DRUG STORE

The Good Old Days

VACATION '72

To frantically cram a month's travel activity into two weeks just can't be done! Those who neglect to budget holiday time as well as money, can plan to return thoroughly disillusioned, and completely exhausted.

Plan next year's vacation while the memory of this year's is still fresh. Sit down with the family and take your recent trip apart—day-by-day—and include the bad moments as well as the fun times.

Vow next year to reserve each night's rooms as you check out in the morning. Use roadside picnic areas for midday stops and ease driving fatigue. Make a realistic schedule and stick to it.

Plan a hobby vacation. Upstate New York and Connecticut are the places to go for a summer stock tour of pro/amateur theatricals. Indiana's underground cave area is a veritable paradise for spelunkers.

You will discover early American history around every corner in New England. In the south you'll find craftsmen skilled in centuries-old handwork; candle and soap making, chair caning and basket craft, weaving, quilt making.

Heading west? Ghost towns are yours for the wandering. Want to follow the Old Oregon Trail? the Santa Fe Trail? Major oil companies will chart these routes for you, and they'll even include side trips you'd otherwise miss.

Long range planning is called for if a trip to Europe is your dream. There are literally hundreds of tours and cruises offered during the year. They start recruiting months in advance, and their cost for a family is surprisingly low.

In the early days of the automobile, a group of indignant rural residents in Pennsylvania formed the "Farmers Anti-Automobile Society." Members were dedicated to the destruction of the horseless carriage. Here are some of the rules of the organization:

1. Automobiles traveling on country roads at night must send up a rocket, wait until the road is clear, then proceed with caution. The driver should use the horn continuously and repeat the performance of rocket shooting every mile.

2. If a team of horses should approach an automobile, driver must pull over to the roadside, stop the motor and cover machine with a dust cover on which has been painted a country scene. This will render the machine invisible to the horses.

3. In case a horse is unwilling to pass an automobile, the driver must take the machine apart as rapidly as possible and conceal the parts in the bushes.

LEO—Leo-born are apt to be fiery, generous, and with love dominating their lives. Usually of a happy disposition, they are very positive.

GLADYSLAN

BARBERSKX

Serve tuna Italian style to guests or the family. It's teamed with extra wide noodles, spicy tomato sauce and a trio of cheeses, creamy cottage cheese, Mozzarella and Parmesan. Serve with milk, French bread and a tossed salad.

TUNA LASAGNA

- 1 can (1 lb. 12 oz.) tomatoes
- 1 can (8 oz.) tomato sauce
- 1 package (1½ oz.) spaghetti sauce mix
- 1 teaspoon leaf oregano
- 1 teaspoon sugar
- 1 small clove garlic, minced
- 2 cans (6½-oz. each) tuna, drained
- 8 ounces lasagna macaroni
- 1½ cups cottage cheese
- 2 cups (8 oz.) shredded Mozzarella cheese
- ¼ cup grated Parmesan cheese

In a 2-quart saucepan combine tomatoes, tomato sauce, spaghetti sauce mix, oregano, sugar and garlic. Simmer uncovered for 30 minutes, stirring occasionally; add tuna. Meanwhile, cook lasagna macaroni according to package directions. Place one-half lasagna macaroni in a buttered, shallow, 2-quart baking dish; cover with one-third of tuna sauce. Add one-half cottage cheese; cover with one-half Mozzarella cheese. Repeat layers, ending with tuna sauce. Sprinkle Parmesan cheese over top. Bake in a preheated 350 degree oven 30 minutes. Remove from oven; let stand 15 minutes before cutting into squares for serving. Serves 6-8.

WASH THAT RAIN GEAR

If it's marked washable, you *can* wash it, and in your washing machine. The original waterproofing will last as long as when the garment is dry cleaned.

Pretreat collar and badly soiled spots first. A short soaking in one of the new enzyme products will help. Use a mild detergent, and the wash-and-dry cycle of your washing machine. It is important to rinse thoroughly as any suds left in the garment will counteract the waterproof finish.

If your dryer has a wash-and-dry heat setting, use

UPHOLSTERING FOR FUN

When decorative pillows, fancy covers, and even dim lights no longer hide that worn chair in the corner, it's time to "build" yourself a new one. Reupholstering too complicated? Not at all. It's easy and fun to do, and there's no limit to the fabrics you can use.

In cities that sponsor an adult education program, upholstering classes are one of the most popular. Should your town not offer these classes, your public library abounds in "How To—" books that illustrate each step in detail.

The fabric you select should be of a firm weave, and a slick surface will outwear a napped one. Checks, plaids and stripes are more difficult for beginners to work with than solids.

Wool is excellent because of its long wearing quality, and it's easier to work with because it readily molds to the shape of the chair. Don't limit yourself to upholstery fabrics; those made for skirts, dresses and sportswear are available in a wide range of colors and textures.

Decide on the trim you want and buy it with the fabric. Binding of matching fabric will give your chair that professionally-done look. A bedroom chair will take about 5 yards of fabric, 4½ yards of muslin for the undercover, and 3½ yards of burlap to cover the springs and stuffing.

The major steps in upholstering are stripping, rebuilding, and recovering. As you strip the chair, carefully notice how the original job was done. Take notes and even make rough sketches to "jog your memory" when you start to redo it. Use the old cover and muslin pieces as patterns. After stripping, check the springs to make sure they do not need retying. Replace worn webbing.

When you are ready to re-cover, work on the various parts of the chair in this order: seat, inside arms, inside back, outside arms, outside back, and trim. Make sure to pull the material taut for a smooth, unwrinkled surface.

Take care—take time, and when you're done you'll be proud to bring that chair back into the light!

Where's the CELEBRATION?

September 17... This festival is a veritable explosion of music and joy! It commemorates the destruction of a site of pagan orgies in 44 A.D., and for three days and nights noise and gaiety (spurred by lots of wine!) pervade the air. You're in Italy, and it's the Festival of Piedigrotta.

VIRGO—Health, hygiene, and cleanliness guide the principles of Virgo's sons, and daughters. Many of them became doctors and nurses.

ASTRA

SAPPHIRE

PORK CHOPS 'N' SWEETS

- 6 pork rib or loin chops, cut 1 inch thick
- 2 tablespoons lard or drippings
- 1 teaspoon salt
- ¼ teaspoon pepper
- 2 to 3 medium sweet potatoes, peeled and sliced ¼ inch thick
- 1 can (13½ ounces) pineapple chunks
- ¼ cup brown sugar
- 3 apples, cored and cut into 6 wedges each
- Water
- 2 tablespoons flour

Brown chops in lard or drippings. Pour off drippings. Season. Add potatoes. Drain pineapple chunks, reserving liquid. Combine ¼ cup pineapple liquid and brown sugar. Pour over chops and potatoes. Cover tightly and cook slowly 1 hour. Add pineapple chunks and apple wedges. Cover tightly and continue cooking 15 minutes or until pork chops are done. Remove chops, potatoes, apples and pineapple to heated platter. Add water to cooking liquid to make 1 cup. Thicken with flour for gravy. 6 servings.

REXALL BREATHFRESH

is a lifesaver!!

...the question is whose?

YOU CAN RELY ON ANY PRODUCT THAT BEARS THE NAME **REXALL**

A large deep tray or pan, spray painted to match your decor, makes an ideal receptacle for six or eight potted plants. Spread a layer of white pebbles on the bottom to provide drainage for the pots.

Clay pots are best for all plants because they allow them to "breathe." If clay pots have become discolored, a good scrubbing in a mild detergent will restore their natural color and shine.

On breezeway or porch, buy large size funnels for ivy or philodendron. Make three equally spaced holes close to the top rim and twist lengths of wire through. Fill holes in funnels with large stones. Make a hanging loop by twisting wires together at the length you desire. Be sure to hang them where water will not damage floors or furniture.

At your hardware store get a jumbo soup ladle or dipper. Paint a bright color with hard enamel, dry thoroughly, then fill bowl with rich soil and plant a small vine. Hang from a wall bracket . . . the hole for hanging is already in the handle!

Use potted plants as bookends. The heavy dirt and root ball inside hold the books securely. If the bookcase doesn't get enough sun, rotate plants frequently or use plants that need light but not direct sun. Plants will do well in bathrooms; the moisture from baths and showers agrees with them.

Decorate your plants during the Christmas season with the tiniest of balls, and bits of tinsel. Make a round frame from a coat hanger and train your ivy around it. Add a red bow at the top and you have a standing wreath.

Use larger house plants as table centerpieces. Place a layer of white pebbles on top of the soil, then decorate with little figurines, tiny birds or china animals.

On a decorative glass tray or mirror, invert three clear brandy snifters over little pots of ivy. Elevate snifters (to let moisture escape) with balls of florists' wax and set fat candles on top of snifter bases.

Feed Your Fire A New Diet

Here are some *unusual things to burn in your fireplace*: PINE CONES . . . chemically treated to give assorted colors while burning.

FRUITWOOD . . . apple, orange or black-cherry are especially fragrant.

IRISH PEAT . . . has a rather pungent odor. Comes in compressed bricks. Difficult to light but extremely long-burning.

HICKORY CHIPS . . . usually used in outdoor barbecues but add that "something unusual" when used indoors. Chips should be soaked in water first, then sprinkled over the fire.

PRES-TO-LOGS* . . . sawdust formed into cylindrical logs. Economical to use and burn with little ash. LIGNUM VITAE . . . a tropical wood called "wood of life." The natural resin bubbles up as it burns and creates dancing flames. Use one piece at a time for best effect.

*Trade Name.

DOWNEAST CASSEROLE WITH POP-TOP BREAD

2 cans frozen shrimp soup
1 lb. halibut or haddock
1 lb. scallops

Cut fish and scallops into bite-size pieces. Combine fish and the thawed, undiluted soup in a greased baking dish. Bake 45 minutes to an hour **UNCOVERED** in a 350° oven.

Serve on toast points, patty shells, or over hot rice or fine noodles.

3-3/4 cups flour 1/2 cup cooking oil
1 pkg. dry yeast 1/2 cup sugar
1/2 cup milk 1 tsp. salt
1/2 cup water 2 eggs

1 cup grated cheddar cheese

Stir together 1 1/2 cups flour and yeast. Warm milk, water, oil, sugar and salt and stir into flour-yeast mixture. Beat 2 min. Blend in cheese, eggs, and enough of the remaining flour to make batter stiff. Beat about 1 min. at medium speed. Divide into 2 well-greased 1 lb. coffee cans, cover with plastic lids and let rise till dough is 1/2" from top of can. Remove lids and bake 35 min. or till brown in a 375° oven. Cool in cans 5 min. before removing.

Where's the CELEBRATION?

October 29 . . . The lights of the crescent moon, according to folklore, once saved your city of Byzantium. It now is the focal point of your flag. Though a sultan was once your supreme ruler, a president has headed your government since 1923. You're in Turkey and it's Republic Day.

LIBRA — Influenced by love and beauty, Libran men marry successfully. Men become good journalists, lawyers, and teachers. Women make good teachers and entertainers.

Vary Your Salad Greens

Housewives tend to get in a "sad rut." To tempt lagging appetites, vary the greens used as you vary the dressings. There are many greens other than cabbage or lettuce which make delicious salads.

Curly Endive: very curly, narrow leaves. Dark outer leaves with a pale yellow heart. Slightly bitter flavor.

Romaine: coarse outer leaves are a bright green. Grows in a cylindrical-shaped head.

Escarole: broad, wavy leaves form a large, loose head. Very crisp.

Chinese Cabbage: known also as celery cabbage. Light green leaves form a long, tapered head. Has faint cabbage flavor.

Water Cress: small, dark green leaves grow in bunches. Very crisp.

Has a spicy, slightly peppery flavor.

Savoy Cabbage: more tender than other varieties. Very curly, wrinkled leaves. Less pronounced cabbage flavor.

Finochietto: similar to celery in texture. Has a white, fleshy, very tender leaf base. Unique flavor of anise.

Dandelion Greens: slightly bitter flavor. Picked wild in the spring. Cultivated variety is lighter in color and more tender.

Spinach: dark green, rather curly leaves. Young leaves are crisp and sweet. Available all year.

Dill, Chives and Parsley: used mainly for salad flavoring, but can be used in larger amounts as an addition to other greens.

MAKE AN ADVENT WREATH

Sunday, November 28, marks the beginning of Advent. Share the drama of Advent with family and friends by making a beautiful Advent wreath which symbolizes the meaning of the season.

The circular wreath represents the earth's orbit and the continuing flow of time. The color of Advent is purple, so purple candles are generally used, although red or white tapers are acceptable also.

The first candle is the candle of prophecy. Lighted on the first Sunday, it burns throughout the week. On the second Sunday, light the candle of Bethlehem, and burn the two during the second week.

The light of the shepherd's candle joins the others on the third Sunday. The angel's candle is lighted on the fourth Sunday in Advent and all candles shine together until Christmas.

Wire or styrofoam wreath forms, complete with four candleholders, may be found in variety stores or florists' shops.

Decorate wreaths with fresh or plastic greens, making sure you fasten them securely to the frame.

Advent wreaths can be used as table centerpieces, or you can fasten long ribbons to the four spaces between the candles and suspend from ceiling or from a light fixture over a table.

CAUTION: fresh greens are highly inflammable so keep a close watch on the burning candles.

SHERRY ROASTED LEG OF LAMB

(Serves 8)

- 1 leg of lamb, bone in
- 2 teaspoons salt
- 1/4 teaspoon coarse-grind black pepper
- 1 teaspoon monosodium glutamate
- 2 cups sherry

Early preparation: Several hours or the night before roasting, place leg of lamb, fat side up, in shallow roasting pan. Brush liberally with sherry. Then sprinkle with salt, pepper and monosodium glutamate. Cover with Reynolds aluminum foil and refrigerate. More sherry may be dribbled over the leg slowly several times during refrigeration period.

To roast: Drain off sherry before slipping a rack under the roast in the same pan. Pour sherry back over roast. Cook, uncovered, in slow (325°) oven 30 to 35 minutes to the pound or until meat thermometer registers 175° to 180° depending upon desired degree of doneness.

Garnish with Mint Meringue Peas.

MINT MERINGUE PEARS

- 8 canned pear halves
- 1 egg white
- 1 small glass mint jelly
- green coloring

Drain pear halves well on paper towel. Whip egg white, stir in mint jelly and a few drops of green coloring. Continue beating until egg whites stand in peaks. Top each pear half with meringue and bake in 350° degree oven until meringue is set and edges are lightly tinged with brown.

Where's the CELEBRATION?

November 5... In 1605 a conspirator attempted to blow up the king and his parliament. Each year, his failure to do so is marked by nation-wide celebrations featuring street bonfires on which to burn this traitor in effigy. Youngsters on every corner beg for pennies. You're in Great Britain, and it's Guy Fawkes Day.

SCORPIO—Scorpio-born often bring a wide expanse of knowledge and energy, action and resourcefulness are their greatest gifts.

Put the heat on winter miseries!

Heat Lamps & Sun Lamps Vaporizers

Rely on the REXALL Brand!

REXALL

Cara Nome

a complete system of complexion & beauty care

...puts natural beauty at your fingertips!

SHOP EARLY FOR CHRISTMAS AT YOUR **REXALL** DRUG STORE

Here's a way to keep children amused when the weather doesn't permit outside play. All you need are candle stubs and a tin pie pan for each child.

Pour melted wax into a greased pie tin to fill 1/4 inch from top. Float pan in sink full of cold water until wax begins to harden around the edges - about 1/4 inch. Slowly immerse pan in water and the liquid wax will float out of pan and harden, making strange

cave/mountain/icicle formations. Loosen from pan carefully and decorate with tiny trees, animals, figures and stones.

If brown wax is used, the formation will resemble an underground cave with all sorts of interesting ledges, nooks and crannies. If gray-blue wax is used, the resulting formation is that of a "moonscape." Just remelt the wax if the first try doesn't satisfy!

NEIGHBORHOOD COOKIE BAKE

"Many hands make light work" was never more true than when applied to this very easy and enjoyable way of getting your Christmas cookies baked - in one day!

Pick a convenient afternoon and invite four friends or neighbors to bring their favorite cookie recipes. Over coffee, decide the bake off date first, and then pick eight or ten recipes that will be used. Make a list of needed ingredients. It's best if one person does the buying. The total cost can be divided later.

Make each person responsible for bringing her own storage boxes and containers for packing the "fruits of your labors," and it's a good idea to ask for extra cookie sheets also.

On the chosen day, start early to avoid working far into the night. Assign two to mix the various batches, two to roll dough, either in balls or for cutting in fancy shapes, and one who will keep tabs on the cookies as they bake. Switch jobs after 3 or 4 batches.

To keep pre-schoolers out from underfoot, give them the job of sprinkling sugar on cookie tops, adding decorations and placing unbaked cookies on the pans. Here's a recipe to start you off. It's sure to become one of your favorites.

CHOCOCRISPS

Melt over hot water:

- 4 tbsp. butter
- 2 squares chocolate
- 1 cup sugar
- 1/2 tsp. salt
- 1 tsp. vanilla
- 1 cup flour
- 1 tsp. baking soda

Cool, then stir in:

Sift together:

Mix thoroughly. Stir in 2 eggs and beat until completely blended.

If dough seems soft, chill for 2 hours. Drop by 1/2 teaspoons into shallow pan of sifted powdered sugar and roll around to cover all sides. Place on ungreased cookie sheet and bake 10 minutes in a 400° oven. Tops will crack during baking to give cookies a lace-patterned look. Cool before packing in tightly covered containers.

Rexall ...for custom-tailored scents...for after-shower, after-shave, after anything!

Rexall ...to delight the luxury loving...to make her wishful thinking come true!

Where's the CELEBRATION?

December 13... On this day the eldest daughter is dressed in white with a crown of candles on her head. She serves coffee and cakes to the rest of the family. In this land of winter darkness, this is your way to pay homage to the patron saint of Light. You're in Sweden, and it's St. Lucia's Day.

SAGITTARIUS — Energy, enthusiasm, and love of freedom are the dominating traits of persons born under this sign, a person leading to disaster.
